THE DEVIL & DARK TECHNOLOGIES

IF THERE ARE DOCTRINES OF DEMONS CAN THERE ALSO BE....TECHNOLOGIES OF THE DEVIL?

If dark entities can influence, communicate and guide those who are willing to write down their 'teachings'producing volumes of 'spirit given doctrines' (example Alice Bailey) can these same dark entities speak to scientists and give ideas for technologies? More vital than that in this week's series: *Does the dark side have an agenda that includes the development of technologies that they will need to accomplish globalism and produce Armageddon?*

Do mil lab scientists, weapons developers and new age globalists meditate to get 'guidance'? Can scientists who have occult doors open be influenced, given ideas and develop technology the devil himself wantsout on the field of future human history?
