In every city throughout the USA and in places all around the world deep dark satanic rituals have and are being done. Dark rituals like those of old are in full bore. The revels, the blood and the summoning are at its highest level in all of history. Dark rituals like this are happening all around the world past and present. I believe the future will burst with satanic crimes, rituals and dark powers will flow. What is going on now will not fade away; this darkness will grow off the charts and beyond any expectation.
