

## **NON HUMAN INTELLIGENCE'S**

There real beings contacting, communicating and influence humankind on a massive scale!

Someone hears a voice another says something or someone came into their room...but who or what? Others talk to them and they talk back. What do they want and why are they here. Are they extra terrestrial or extra dimensional? They seem to seek out individuals; they desire contact and a listening ear. They want so much more. Why so many?

They are entities that are the same in nature and purpose but are ranked and or.... there are types (species) of them. Some want governmental leaders and influence political ideology others want to draw military minds into supra secrets and grant advanced ideas...but to what end? What about those who are summoned at rituals or seek habitation inside a human personality? Does the world really know what is happening to it?

That there is an evolution of a very dark but masquerade plot is only the tip of a very icy evil iceberg. If you see the tip.....or feel it in the air are concerned they what about the .....Berg? that no one sees or feels.....yet. Join Russ this week as he seeks to look below the surface of the deep and point to what is here and what is to come.
